# MORE THAN JUST TRANSPORT

# HIGH PERFORMANCE PEOPLE RELIABILITY

## WHO WE ARE

With a passion for trucks, Graham Symons established Symons Transport in 1984, based in Taranaki. From a small farm shed and 1 truck over 30 years ago, we have now grown into one of the leading businesses in our industry.

As Symons Group grows, we have developed services that deliver a one-stop shop solution. This encompasses 4 successful business units Transport, Energy, Property, and Waste Remediation Services. This enables us to provide an integrated supply chain to our clients, tailored to their business requirements.

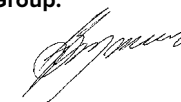

### What makes us successful?

Simple. Our people. For us, our teams drive the business performance. From our drivers of our fleet, our energy services team, our logistics team to our highly involved management team, every member of the Symons Group plays an integral part of our success. As a result of teamwork, high-performance management and state of the art equipment, we are capable of designing and executing the best solution for our clients. Every time.

### What does the future hold?

We believe in continuous improvement. Providing the best service to every client is non-negotiable at Symons Group. Our key deliveries are aligned to the fundamental principles of high performance, today, tomorrow and in the coming years. Our culture is one of open communication, which allows people to work together in teams to find the best outcome that corresponds with our clients' requirements.

**Together we grow. Together we are Symons Group.**

Group

# BEST QUALITY EQUIPMENT, A HIGHLY SKILLED & MOTIVATED TEAM AND CONTINUOUS IMPROVEMENT

## TRANSPORT SERVICES

With over 30 years of experience, Transport Services is Symons Groups' foundation stone. Our team pride themselves on delivering superior transport solutions to our customers. We take care of your request from start to finish, this allows our Logistics Team to create the most efficient solution. Symons Transport's "can-do" approach to every project and our on-going development in technology and equipment makes it a winning combination, we will always find a way.

### Our Transport Services include carrying:

- Dangerous goods such as crude oil, condensates, natural gasoline, LPG and waste fluids
- Water, milk, juice, and wine through our food grade tanker fleet
- Tipper, Trailer, Transporter and Excavators
- Swing lift Containers
- Cement Tanker
- Chemicals and casing carried utilising our low loaders, flat decks and Curtainsider
- Equipment, including oversize loads with pilot escorts
- Emergency deliveries 24/7

To stay on top of market changes, Symons Transport has integrated Symons Energy into their transport operations. As a result of the synergies created, we can deliver efficiencies and significant savings to our clients.

# ENERGY SERVICES / 3PL

Graham Symons had a vision to create an energy services hub in Taranaki. In 2010, Symons Energy was born and another foundation stone laid. Today, Symons Group is the only one-stop shop operator in the energy sector. Our Energy Services fleet includes specialised equipment to handle all our pipe, casing and DG goods.

## Our Energy Services are:

- Third-party logistics delivered by our Energy Team
- Over 50,000 m2 of uncovered and over 6,000 m2 of covered storage including daily inventory tracking with our management system
- Solutions for all imports of cargo and goods incl. container devanning at our MPI approved transitional facility (ATF)
- We can store all types of cargo, including dry and dangerous goods for the following HSNO Classes, 3, 6, 8, & 9, which are available for all industry types. Our spacious warehousing facilities can devan to MPI standards. We offer specific client designed inventory systems which allows customers access to an up-to-date list of their equipment stored on our premise.
- Our 3PL clients include Lonza, YHI, Blast One, Beach Energy, ABB, Todd Energy, OMV, Tamarind and Westside.
- Freight forwarding solutions for all exports of cargo and goods from New Zealand
- Dangerous goods packing and documentation for land, sea, and airfreight
- Immediate and urgent response to all urgent procurement request
- Waste removal of client's obsolete inventory

## Our Pipe Inspection Services including:

- Non-destructive testing, incl. magnetic particle inspection (MT) for ferrous equipment
- Liquid penetrant inspections (PT) for non-magnetic equipment
- Inspections of end area connections, Thread profile gauging and Visual end area inspections
- API (American Petroleum Institute) specification compliance inspections, incl. TH Hill DS-1, EMI, UT and MT inspections

Our senior management team in Energy Services has over 15 years of logistics experience and extensive experience in oil and gas operations.

To accommodate our clients specialised requirements, we work in conjunction with IOT Group, SGS New Zealand Ltd, Pounamu Oilfield Services, and Independent NDT Ltd.

## WASTE REMEDIATION SERVICES

Waste Remediation Services complete Symons Group's key objective to be a one-stop shop to the Energy sector.

WRS was established by Symons Group in 2014. This service specialises in a fully integrated waste disposal system dedicated to land farming, which is fully compliant with TRC conditions and operational in South Taranaki.

Waste Remediation Services works with all parties involved, such as landowners, surveyors, planners, councils and contractors to ensure a seamless process. Transportation, security, disposal, monitoring and reporting are compliant and handled efficiently by our specialised WRS Management Team.

As a result of our land farming solution WRS, provides significant operating and capital improvements to our land owners.

As part of Symons Group's principal of high performance, WRS goes above and beyond the necessary remediation requirements to the environment while delivering the best solution to our clients.

[www.symongroup.co.nz/wrs](http://www.symongroup.co.nz/wrs)

*"I have used WRS for all my landfarming operations for the past 5 years. I have found them a very professional company to deal with."*

# EXCEEDING CUSTOMER SATISFACTION WITH A COMMITMENT TO SAFETY

## HEALTH & SAFETY ACKNOWLEDGEMENTS

Symons Group is committed to maintaining a culture where all our teams actively participate towards a safe workplace environment to deliver sustainable services to our clients.

### Our acknowledgments are:

- **ACC FLEETSAVER PROGRAM - GOLD**  
Symons Group were the first enterprise in Taranaki to be awarded gold status.
- **5 STAR OPERATOR RATING SCORE (ORS)**  
Symons Group maintain a 5-star score which ranks us within the top 4 transport operators for kilometres driven nationally.
- **NZI/LUMLEY AND EROAD SAFE DRIVING PROGRAMME**  
Symons Group is amongst the top 5% of over 5,000 heavy transport businesses using EROAD IVMS. This Programme is a collaboration between NZI/Lumley and EROAD, designed to encourage safe driving.

### We are also innovators.

- **WE WERE FIRST** in implementing a vehicle fatigue management system which actively monitors the driver for distraction and any fatigue events. It provides a series of interventions aimed at managing these events.
- **WE WERE FIRST** to utilise grapple forks for pipe movements to ensure product protection by eliminating movement and the risk of slips and spills.
- **WE WERE FIRST** in the Taranaki region to install a three-way separator for managing waste products in a tubular servicing facility.
- **WE WERE FIRST** in the Taranaki region to adopt the NZTA approved Safe and Fuel Efficient Driver training program.

## LOCAL SERVICES IN THE COMMUNITY

Graham and his wife Jill's non-negotiable for the Symons Group Team is family comes first. It makes us proud to provide support for the wellbeing of our next generation, we provide funding for schools, sports clubs, junior rugby and Taranaki Rescue Helicopter Trust. We are committed to Coastal Taranaki and surf lifesaving to help keep our community safe.

**As a Registered Certified Water Carrier**, Symons provides transport of bulk water and clean drinking water all year round, seven days a week. We deliver to farms, lifestyle blocks, schools, commercial and residential swimming pools, businesses and local events as well as we are first in line in event of environmental emergencies.

**Environmental, Social and Governance Sustainability (ESG)** is front of mind in the strategic planning of the Symons Group of companies. One of the key goals held by Graham and Jill is to become a 100 year company. This can only be achieved with careful consideration to the part we play in the success of our people, the industries we are a part of and the planet we occupy.

### Our Digger and Tip Truck

We have 20 tonne and 12 tonne diggers available with highly skilled operators supported by tipper truck and trailer

- Farm drainage and development
- Building site preparation

**For every customer referred to by a local school in Taranaki, the school receives a donation of \$50.00.**
